

Big Bay Point Plaza

Client: McKnight Charron Laurin Inc. Architects
Location: Big Bay Point Rd. and Prince William Way, Barrie
Services: Site design, Drainage design, and Stormwater Management

The Jones Consulting Group was retained by McKnight Charron Laurin to design a site plan for commercial development situated at the northeast intersection of Prince William Way and Big Bay Point Road. Jones was responsible for the design of site services, including parking lot and grading design, water, sanitary sewer, storm drainage and stormwater management ponding and quality controls. The design took into account the capacities of existing municipal services. A sediment and erosion plan was prepared. Jones coordinated with all subconsultants. Construction has yet to begin.
