

Rawson Road

Client: City of Barrie

Location: South of Saunders Drive and West of Huronia Road

Services: Stormwater Management, Detailed Design of Roadworks, Project Management, Contract Administration

The City of Barrie retained the engineering services of the Jones Consulting Group Ltd. in 2005 to undertake the design and contract administration of Rawson Road, an industrial subdivision development in the southern portion of the City. The land is situated south of Saunders Drive and west of Huronia Road in the City of Barrie, County of Simcoe. In addition to the road and intersection designs, site grading work was undertaken along with drainage review and underground servicing co-ordination. The road was constructed in 2006. Supervision and contract administration activities were also provided by TJCG.
